DAILY NATIONAL WHIG.

BY WORKHINGTON, D. C.,

SATURDAY MORNING, MAY 19, 180.

SATURDAY MORNING Messrs. Greek to the President, was plation. It is a revenue measure, and belongs to the House of Representatives. We shall recur to the matter, in a day or two, in answer to the arguments of the Washington Taylor. No printing has been taken from the Messrs. Greek, of which time enough the mough cited and which was autstactory to General Taylor. No printing has been taken from the Messrs. Greer, of which time enough could be allowed for its execution. This is the whole substance of this affair, about which the Messrs. Greer and the Union have the Messrs. Greer and the Union have of the 5th inst. the Messrs. Greek and the Union have made such a great noise. The Department can take away the whole contract, for nonfulfilment, and give it to another. We are given to understand, that it has, for a very long time, regarded the contract as a failure. On this point, the Department and the contractors are at issue, and as the law gives the Department the full power to decide upon the question of fulfilment or non-fulfilment, the Messrs. Greek would have no right to complain, if they lost the whole contract and were subjected to the penalties of the law, in the case made and provided. In making this vindication of the Department from the charge of the Messrs. Greek, neither this journal nor the Department entertains any but the kindest feelings to the contractors, whose inability to come up to the requirements of their bond, is, we are sure, more their misfortune than any wilfal sure, more their misfortune than any wilful purpose of neglecting the performance of their duties. But we must be permitted to

purpose of neglecting the performance of their duties. But we must be permitted to say, that we do not think, they have done themselves any credit, by trying the subject before the public, though of this they are their own judges.

We publish to-day a timely warning from the pen of the Editor of the Union, respecting the Cholera. We hope, that its tones will wake up the sleeping security of our citizens and their city government, upon this momentous subject. Let us all take example of Louisville, in Kentucky. That city has checked the progress of the fell disease in its midst, by hyge-inic efforts. The people and the authorities of Louisville, have used the shovel and chloride of lime effectually. Among the disinfectants, we think that Ledoyen's Disinfecting Fluid is the best thing of the kind extant. It can be had inny quantities at Gilman's Drug Store. It has put a stop to ship fever in two hours. It is now being used by the United States navy and naval Hospitals, and the naval surgeons have given it the highest testimony. Let us all wake up. We are askeep over a volcano of disease. It may be here this morning, to-day, at noon, to-night at the setting sun, or before to-morrow's sun shall rise. It is like a thief in the night. It is supposed to be occasioned primarily by a lack of the usual supply of the electric fluid in and around us. We hear of a physician, who cures cholera by the application of electricity. He predicts, that it will never be found in the immediate vicinity of the Telegraph batteries. This is rather a novel idea, but one worth remembering, but be it what it may, let us be up and doing. Let every one of our citizens go to work and have his the continued purification of electricity and response to the continued purification of letters and the calcular power of the results of the result it may, let us be up and doing. Let every John Franklin had taken that route, an ly back before winter with tidings. heuse and premises thoroughly cleansed and white-washed, and sprinkled with some disinfectant. Let this operation be repeated every few days. Let no filth accumulate about where we live. Let us procure its immediate removal. Then, let the city authorities devote money to the immediate cleansing of the streets and alleys and sewers, and let them be kept clean. What are a few thousand dollars to the precious. are a few thousand dollars to the precious lives, which may thus be saved?

But in connection with this matter, we must be permitted to doubt the wisdom or propriety, of cleaning out the canal at this juncture. If it is persisted in, the matter excavated ought immediately to be removed and disinfected. It is evident to any man who thinks at all, that the excavation of the soily and decomposing matter of this canal, will be attended by the evolution of gases. for we sink or swim with Old Zach and his fortunes.

The Union exchains, stand from under! We remarked the time of the corruptions of a theory years' dynasty states of atmosphere, but in a cholera atmosphere, it will be sure to increase the supply of the agents, which are most active in producing cholers. We submit the question to the City Councils and to the Mayor, in the hope that they will consider it in all its aspects, and do that which will serve best to preserve the health of the city. For ourselves, we are decidedly of opinion, that the excavation ought to be stopped. This is soily and decomposing matter of this canal, will be attended by the evolution of gases

—The Union publishes a decently long list of recent Post-office appointments in the State of New York, and says, it was not altogether prepared for such a result. Why it's nothing, sir, when you get used to it—as the man said of the cels he was de-outieling.

full of the most exciting accounts of the flood. An attempt was made by one part of the town to hedge off the water, by means of a levee, but the inhabitants of the other part already under water, tore away the levee, and insisted that the whole town should suffer alike. The telegraphic news of the 16th inst. does not lead to the belief that the flood begun to

does not read to the retreat.

Ly We are informed that the National Hotel be opened by its principal owner, Mr. George vert, on the lat of July next.

I'm A serious accident, by the careles g. A serious accident, by the careless use of fir arms, occurred to a young lady named Miss Shee kles, day before yesterday. Her brother, a youth playfully pointed a pistol at his sister, when it acel dentally exploded and wounded her in the breast,— We are happy to learn she is not in danger.

... We congratulate the Baltimore Argus us its discovery, that the administration of Zacus. Tavica is a blessing to the country. Our Descratic brother is on the high road to conversion is his sine.

— Union of yesterday.

We think so too, and the editor of the Union ought to appreciate the mercy shown to him in the premses, for the effect of publishing the removals in column might be apt to—increase his tailor's bill! The editor of the Union begins to suspect that

The editor of the Union begins to suspect that he has not many friends at court. We do not know at to that, but we do know, that his numerous friends regard his course of conduct towards the President and the Cabinet with the greatest commiscration and regret. They feel for the degradation to which he liss permitted the banditti of political assassing around him, to reduce his venerable old age.

The Union calls it malice in the Postmaster General to rid his Department of the dead timber, with which the corruptions of the Jackson-Polit dynasty had failed it, if this bea, then the people were guilty of malice in overturning the leaders of that dynasty.

Do you say, they were, old true-penny?

Do you say, they were, old true-penny?

INDIANA.—The Locos of the third District have nominated John L. Robinson, of Rushville, for reflection to Congress.

By The State of t

He never should have come?

A woman was attacked by cholera this morning in Cross struct, on the walk. The officers left her there, upon the plea, that no place had yet been provided for such patients. She is now lying on the walk.—New Fork Evening Post, Monday.

Are there no good Samaritans in New York? Were there no houses near by?

LAUNCH AT THE NATY YARD.—The U. S. sloop-of-war Yandalia, will be launched at the Gosport Navy Yard, in the early part of next week. The day and hour will be amnounced when definite arrangement are made.—Merfolk Beacon.

REVENUE CUTTER CAMPRELL.—This vessel, which has just been completed at the ship-yard of Messrs. Graves & Ferchee, Portsmouth, was launched on Monday morning. She is a beautiful ressel, and does great credit to her enterprising constructors. There was an attempt made on Saturday to launch her, but the ways giving way she fell to the ground, and had to be blooked up again before she could be gotten off.—Nurfolk Beacon.

Manyse Railway.—We are glad to learn that another set of Railways has just been completed by our enterprising townsman, Mr. Nathaniet Nash. They are upon the most approved plan, and capable of taking up the largest class vessel. A schooner was taken up upon them on Monday, for the first time.—Norfolic Beacon.

RIGINIOND AND DANVILLE RATINOAD. We are prailified at being able to inform our readers, that the Detector of the Richmond and Danville Railroad Company have concluded an important, and, it is believed, a very favorable contract with Mr. Josiah Dabba, of Hallinx, for the grading of thirty additional miles of their roads, from its point of intersection with the Staunton river.—Richmond Times.

Hon. Robert Smith is being suggested by several Southern papers as a compromise candidate for U. S. Senator. They say he is a southern man with northern sentiments. Smith has always voted for our Habor. Light-house and Hospital bills, and also all propositions to incorporate the principles of the Wilmot Proviso into the Oregon and California bills. If the matter is to be compromised by setting aside the three original asparants, may we never have a worse man than Robert Smith.—Chicago Democrat.

LOUISIANA INTERIOR.—The following paragraphs are from the Baton Rouge Gazette of the bit:

Consumstoral Normanian —Colond R. A. Steaart.—From a letter published in the Plaquenine Sentinel, we learn that the above mendoned graticman declines being considered as a candidate to represent the Third Congressional District Cherrille, and in Congression of Paragraphs and Congression of the Same and Congression of East Felicians, have also been mentioned. The nomination of either of the above named gentlemen will be a good one, every way worthy of the support of the whig party of the Third Congressional District.

OFFICIAL.

PPOINTMENTS BY THE PRESIDENT

DEPARTMENT OF THE INTERIOR.

Logan Hunton, of New Orleans, to be Attorney of the United States for the Eas-tern District of Louisiana, vice Thomas J. Durant, removed.

Land Officers.

ceiver of Public Moneys at Du Buque, Iowa, vice George McHenry, removed. THOMAS MCKNIGHT, of Iowa, to be Register of the Land Office at Du Buque,

lowa, vice Warner Lewis, removed.

ZACHARY TAYLOR, President of the United States of America: To all whom it may concern. Satisfactory evidence having been exhibited to me that FERNANDO BERNANDER, has been appointed Vice Consul of Pottugal for the port of Philadelphia and other ports of the States of Pennsylvania, Delaware and West Jetsey, I do hereby recognize him as such, and declare him free to exercise and enjoy such functions, powers, and privileges as are allowed to the Vice Consuls of the most favored nations in the United States.

to the Vice Consula of the most taxons to the Vice Consula of the most taxons.

In testimony whereof I have caused these letters to be made patent, and the seal of the United States to be hereunto affixed.

Given under my hand, at the city of Washing-[t. s.] ton, the 17th day of May, A. D. 1849, and of the independence of the United States of America the seventy-third.

Z. TAYLOR.

By the President:

J. M. CLAYTON, Secretary of State.

OBNERAL ORDERS WAR DEPARTMENT,
No. 30. Washington, Adulto, 1995.

1. The following general order is published for thinformation of the Army and the guidance of a

WAR DEPARTMENT, May 11, 1849.

smail, dark, and camp dungeons of the Inquisition at Rome, which have lately been thrown open to at the public. It is out of the beaten track behind St. Peters. The correspondent says:

"The officer in charge led me down to where the men were digging in the vaults below; they had cleared a downward flight of steps, which was choked up with old rubbish, and had come to a series of immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the immediately brought to my mind the prisons of the clearance had only just begun; the period of their lasertion in this spot must have been more than a century and a half. From another vault full of skulls and scattered human remains, there was a half and scattered human temains, there was a half and the scattered human temains, there was a half and the sum of the product of the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the scattered human temains, there was a half and the sc

very mysterious shaft above mentioned."

Grs. McDerfir.—We took occasion, more than once, to pay our respects to General McDuffie, while he was at Dr. Coyle's, at Miledgweile, and became natisfied that the Hydropathic treatment had been beneficial to him. The paralysis of the lower limbs was partially removed, showing a perceptible improvement. We fear that it is beyond human agencies ever to place him firmly upon his feet again. The distressing symptoms of dysopsals, under which he has for so many years labored, were ameliorated. He no longer suffered pain from that cause. His nervous system, which had become utferly deranged, was quieted. The irritability of comper, produced by protracted suffering, was soothed. His hands were no longer trenulous, and his countenance, relieved from that convulsive whiching formerly so painful to behold, was placid and expressive of a mind at case, and a body free from suffering. When he arrived at Milledgweille, life was to him but a succession of painful sensations—so much so, that existence coased to be a blessing. When he left, he was no longer the victim of distressing pains—life was confortable and desirable. May his remaining days continue serene and peaceful, till the last sands in the glass of his eventful life are exhausted.—Augusta Ga., Constellation.

Tar NEXT Presentency—The "Democracy" have this early selective to destinate the claims of the

THE NEXT PERSIDENCY.—The "Democracy" have thus early begun to aginate the claims of their distinguished men for the campaign of 1852. Already have Case, Polk, Benton, and Hannegan, ber mominated. More recently the Vanderburgh (ted.) Democrat nominates Gen. Joseps Laxes, the slandered of Gen. Taylor, and the Indiamophic State Sentimed in antipersonal the motion. Ex-Governot Laxes McDowrst." so nomination in the Francisco Sentinel minity seconds the motion. Ex-Governo James McDowett.'s nomination in the Finesst. Democrat, is balled in some of the Loco Foce pa para and rejected by others, who think that Virginia has furnished ther quote of Presidents. The Robert mond Enquirer copies the Democrat's nomination of Gov. McDowell, by request, without comment.

A CARD. W. G. SNETHEN.

ATTORNEY AND COUNSELLOR AT LAW,
DHOS LEAVE to announce to his friends and the public
that his connection with the National White, as its so
collier, does not interfere in any scanner with his presitional engagements. He will be happy to attend to as
